FOR IMMEDIATE RELEASE

Inventys Named to the 2019 Global Cleantech 100

**Out of more than 13,000 innovators from over 90 countries,
Inventys secures a place in the 2019 Global Cleantech 100**

VANCOUVER, BC, Canada — Tuesday, January 29, 2019 — Inventys, a leading carbontech company developing a CO₂ marketplace, was named by Cleantech Group in the prestigious 2019 Global Cleantech 100.

The Global Cleantech 100 is an annual guide to the leading companies and themes in sustainable innovation. It features the private, independent, for-profit companies best positioned to solve tomorrow's clean technology challenges. This year marks the 10th edition of the list.

"We are delighted to be recognized for our innovation in the CO₂ marketplace," said Inventys President & CEO Claude Letourneau. "Our team is constantly striving to improve the productivity of our carbon capture system in order to provide the lowest cost of high purity CO₂ product to our customers."

The list combines Cleantech Group's research data with qualitative judgements from nominations and insight from a global 87-member expert panel comprised of leading investors and experts from corporations and industrials active in technology and innovation scouting. From pioneers and veterans to new entrants, the expert panel broadly represents the global cleantech community and results in a list with a powerful base of respect and support from many important players within the cleantech innovation ecosystem. The list is sponsored by [Chubb](#).

The [complete list of 100 companies](#) was revealed January 28th at the 17th annual Cleantech Forum San Francisco.
